

Branded Message On Hold & Custom Announcement system

It's a combined Message On Hold Player and Custom Announcement system. The Player has all the key features of a serious MOH player while the supporting web site delivers rapid, professional custom MOH Announcements.

The Player

Key Features:

- 8MB on-board storage
- Also play from 64Mb USB stick (supplied)
- Also play from SD card (up to 8GB storage)
- Complete with installed 'on hold' message.
- Track select and loop play functions
- Over 300 Standard Announcements available by registering (even basic MOH Player!)
- Build in Speaker/Monitor

Technical:

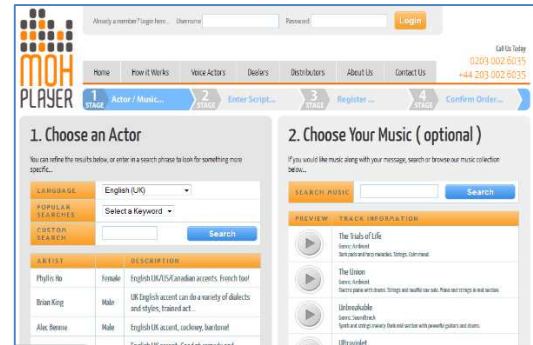

- Plays MP3 wav etc. (internal memory mp3 only)
- Load message to internal memory via USB stick
- RJ45 8 ohm or 600 ohm output – compatible with any phone systems.
- RJ45, 3.5mm Jack & RCA cables supplied
- Wall or shelf mounting with screws

Welcome Card & Guide

The customer Welcome Card & Guide supplied shows how your customers can register, stay legal & use the web site to generate a Customised Announcement.

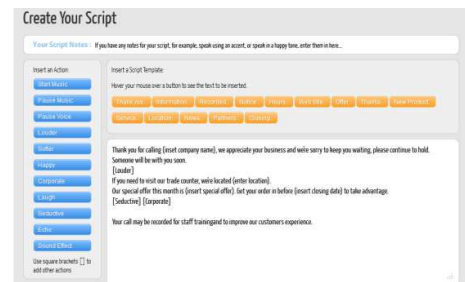

Announcement Web Site

The MOH Player web site allows your customers to quickly and easily generate custom Announcements with over 300 Royalty Free tunes and any number of words.

A selection of over 150 Voice Actors offer Script Assistance to ensure perfect Customer Announcements.

- Register standard MOH Player to choose and download from over 300 pre-recorded messages.
- Script wizards make writing announcements easy.
- Script & Recording approval allows customer review before the final Announcement is made.
- Text notifications to Voice Actor make Custom Announcement production rapid.
- Use the system for any purpose (Auto Att & IVR)
- Download and install on MOH Player is easy
- Announcement Only & Upgrade Vouchers Available
